

GREATEC[®] R125A[™]

NEW Wide Base Trailer Radial

Weight-Saving, Longer-Wearing

More payload ■ Longer tire wear ■ Lower cost per mile

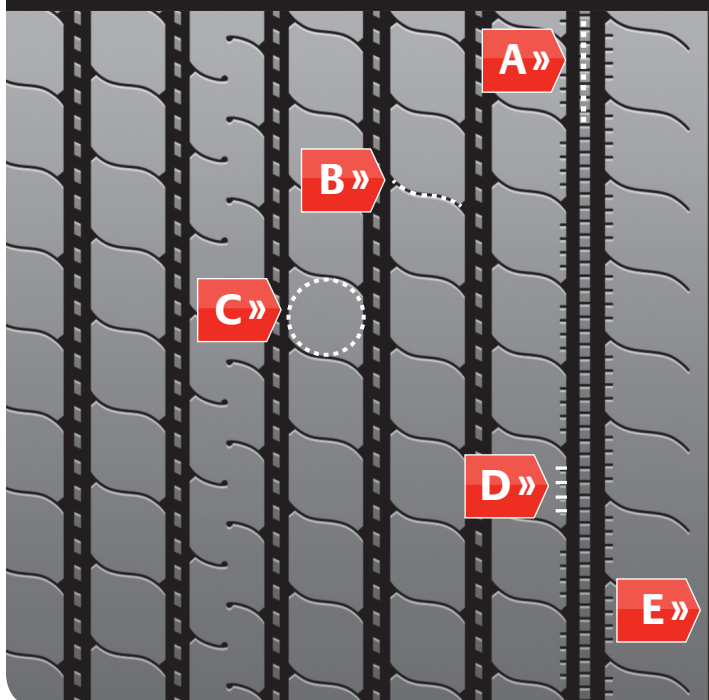

Precisely the right tire.

GREATEC means great technology!

GREATEC R125A wide base trailer radials are another of Bridgestone's innovative solutions to the needs of today's fleets. Switching to wide base radials can allow many weight-conscious haulers to increase revenue-producing payload. And that can mean extra income, trips saved and costs cut.

GREATEC R125A Innovations

A Equalizer Rib[™] structure

.....
Absorbs irregular wear, promoting uniform rib wear and higher removal mileage.

B Thirsty cross-rib sipes

.....
Improve traction by slicing through water for a solid grip on wet roads.

C Fuel-efficient, long-wearing tread

.....
Proven rib design saves fuel while promoting even wear for longer mileage.

D Stress-relief sipes

.....
Fight irregular wear by absorbing rib edge stresses to promote even wear – for higher mileage.

E Defense Groove[™] design

.....
Helps create uniform pressure at the shoulder to minimize edge wear for longer tread life.

GREATEC R125A Innovations

Stone rejector platforms

Combat capture and retention of casing-damaging stones.

Tough sidewall protection

Thick ribs on both sidewalls fight curbing to protect the casing from damage.

Irregular wear-fighting belt package

New wider top belt has been optimized for better irregular wear resistance and longer tread life.

Stronger T.I.P.[™] bead design

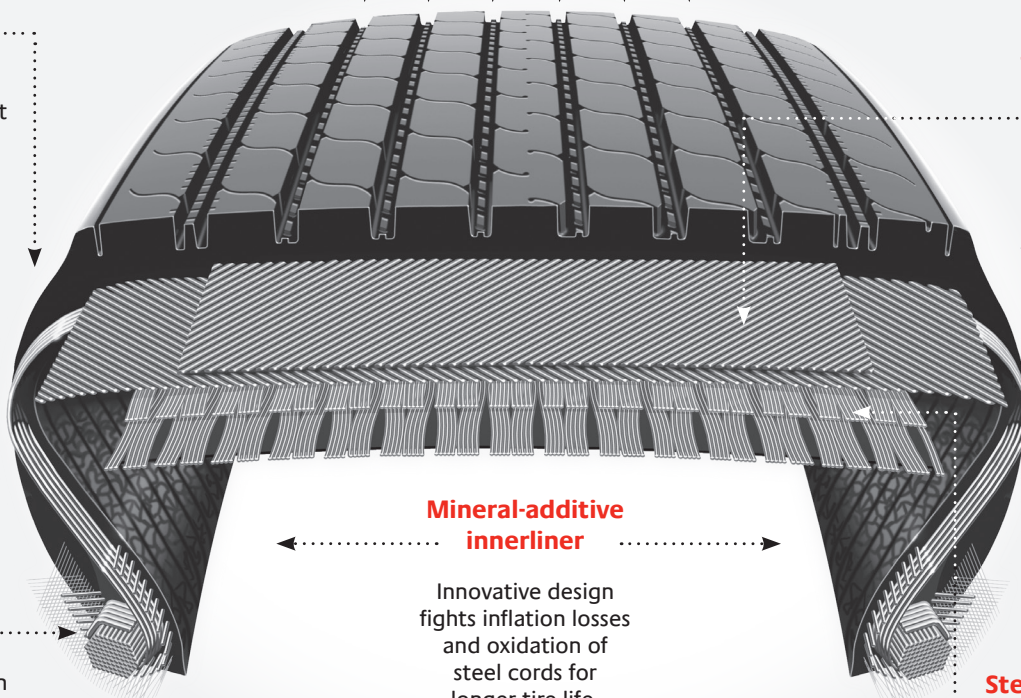

Exclusive T.I.P. (Turn-In Ply) design wraps body ply around bead bundle to help reduce ply end stress and enhance durability.

Mineral-additive innerliner

Innovative design fights inflation losses and oxidation of steel cords for longer tire life.

Steel Waved Belt[™] design

Exclusive belt system keeps casing the right shape and holds tread flat against the road for long, even tread wear and excellent handling.

Warranty and additional technical information is available at BridgestoneTrucktires.com, your dealer or truckstop.

Fact: Bridgestone casings are #1 when it comes to retreadability. It's true: Data from over 2 million casings prove that Bridgestone tires have the highest percentage of retreadability thanks to superior casing engineering. Higher than Michelin or Goodyear. Confirming what fleet managers have always known: A Bridgestone tire investment is a smarter tire investment. Get the facts at retreadinstead.com.

Prove it to yourself. Run the only test that really matters: Try the R125A on your trailers, on your routes, with your drivers and your loads – in short, in your real world. See for yourself how the weight-saving R125A can increase payload and reduce your cost per mile. Call your dealer today!
